ProDSS Driver Installation on Windows 10 Operating Systems

1. Turn the instrument on and connect it to the PC with the included USB cable.

2. Open **Device Manager** by typing "Device Manager" in the search box on the Windows 10 taskbar (Figure 1).

Figure 1 Windows 10 search box

3. Under **Ports**, right click on **USB Serial Device** and select **Update Driver Software** (Figure 2).

Figure 2 Device Manager Windows 10

4. Click **Browse my computer for driver software**.

5. Click Browse, then navigate to the file location: **C:\Program Files (x86)\YSI\KorDSS** for 64 bit systems (Figure 3) or **C:\Program Files\YSI\KorDSS** for 32 bit systems. Click **Next**.
